WHAT'S INSIDE

Filing countdown

Every Thai tax and statutory deadline, dated and counted down for your company.

Compliance vault

DBD records, board resolutions, licenses, FDA listings and trademarks in one place.

Visa & 90-day tracking

Expiry dates and reporting windows, surfaced before they become problems.

Mail & calls, logged

Every letter scanned or forwarded on your standing instruction. Every call, with the message.

Snap-a-receipt bookkeeping

Photograph a receipt on your phone. It lands with your accountant, with your notes.

Book a space anywhere

Meeting rooms and studios in Bangkok, Pattaya, Koh Chang, Chiang Mai, Kuala Lumpur and Manila.

Four jobs Vantage does for your company, every day.

01

Watches every deadline

A Thai tax calendar with 100+ dated filings a year — P.P.30, P.N.D. withholding, P.T.40 and more, with online and offline due dates. Your dashboard shows the next one and counts it down.

Business licenses, FDA listings, trademarks, visas and 90-day reporting carry their own expiry trackers.

02

Keeps your paperwork

Certificates of registration, shareholder listings, affidavits and board resolutions — in Thai and English — ready to view or download in one click.

Need a new board resolution? Request it from inside the portal. Directors, shareholders and AGM records live in your company profile.

03

Runs your front desk

Set a standing instruction for mail — forward immediately, weekly, monthly, or on request. Ask for a scan. See who processed each item and when.

Every call is logged with caller, company and message; attended-transfer rules are yours to set. Alerts by email, SMS or WhatsApp.

04

Shows you the case, not the waiting

Trademark filings, visa applications, company changes — each case has milestones, a named officer and timestamped updates.

When a document is collected or an officer needs something from you, you see it the moment it happens — not at the next phone call.
