01 Express Customs Clearance

GOODS HELD AT PORT

Shipment stuck at a Thai port or airport? We find out why it's held, fix the documentation and extract your goods. Goods left uncleared 30 days after discharge become overstay cargo that Customs can auction or dispose of — so act fast.

Why goods get held

Missing or incorrect export, health or phytosanitary certificates

Missing FDA, safety or compliance certificates

Incomplete permits or licences

HS code mismatch or misdeclared weight

No packing list, or invoice discrepancies

Vague descriptions or undervaluation

How it works

- 1 Tell us the goods, port, arrival date, quantity and value
- 2 Our officer investigates the hold and fees
- 3 You approve a formal quotation
- 4 Payment starts the extraction
- 5 Goods cleared, retrieved and delivered to you
